SUBJECT: Foreign Language Publication Exploitation

TO: ACSI

FROM: CofOrd

DATE: 27 Jan 56

COMMENT NO. 2

1. The draft of the Report to the Advisory Committee on Foreign Language Publications has been reviewed for adequacy of Ordnance coverage as requested in the basic DF dated 19 January 1956.

2. In general, the exploitation program outlined satisfies Ordnance requirements. However, it is believed that certain phases of Ordnance interest should be clarified to enable translators to identify potentially vital types of information which in themselves might, to the uninformed, appear unimportant. This clarification data, together with a recommendation for the transfer of a category of information from Tab B to Tab A, are contained in Inclosure 2.
